I. Read the passage given below and answer for the questions that follow: The Exile of Rama

1.In the ancient land of Ayodhya, everyone loved Prince Rama. He was wise, brave and always did what was right, making him the perfect choice to be the next king. But, on the night before his crowning, Rama's stepmother, Queen Kaikeyi, asked for him to be sent away to the forest for fourteen years. She wanted her own son, Bharata, to be king.

- 2. Rama accepted this unfair decision with grace and left Ayodhya with his loving wife, Sita and his loyal brother, Lakshmana. They lived a simple life in the deep forests, meeting wise sages, battling demons and learning important lessons.
- 3. One day the evil King Ravana saw Sita and wanted to take her. He tricked her and took her to his kingdom, Lanka. Rama and Lakshmana were heartbroken but determined to find her. They made friends with the monkey king Sugriva and the powerful Hanumana. Together they gathered an army and fought a great battle against Ravana's forces. With bravery and help from the Gods, Rama defeated Ravana and rescued Sita.
