Section C Literature - 15 marks

Attempt all questions adhering to the word limit.

Section A: Reading(5m)

Read the following text and answer the questions that follow: [10 Marks]

1. The Bermuda Triangle also known as the Devil's Triangle, is a loosely defined region in the western part of the North Atlantic Ocean. The area is famous for an alleged high number of aircraft and ships that have mysteriously disappeared while passing through it. The boundaries of the Bermuda triangle are not universally agreed upon, but it is typically described as stretching between Miami, Bermuda and Puerto Rico.

2. The mystery of the Bermuda Triangle gained widespread attention in the 20th century, especially after several high profile disappearances. One of the most famous incidents occurred in 1945 when five US bombers, collectively known as Flight 19, vanished during a flight mission. Despite an extensive search, neither the aircraft nor their crew was found.

3. Over the years, numerous theories have been proposed to explain the mysterious disappearance. Some suggest natural explanations such as magnetic anomalies, sudden storms, or powerful underwater currents. Others speculate more fantastical causes such as extraterrestrial activity or the influence of the lost city of Atlantis.

Despite the curiosity, many experts believe that the number of incidents in the Bermuda triangle is not significantly higher than in the other heavily trafficked areas of the ocean. They argue that the reputation of the Bermuda Triangle is largely a myth, fuelled by the sensationalised accounts and a tendency to overlook non-mysterious explanations for the disappearances.

1. Based on your understanding of the passage, answer the questions given below:

- i) The Bermuda Triangle is also known as the:
- | | |
|---------------------|----------------------|
| a) Angel's Triangle | b) Dragon's Triangle |
| c) Devil's Triangle | d) Eagle's Triangle |

1

ii) Which of the following is NOT a theory mentioned in the passage to explain the disappearances in the Bermuda Triangle? 1

- a) Magnetic anomalies
- b) Time travel portals
- c) Extraterrestrial activity
- d) Underwater currents

iii) According to experts the mystery of the Bermuda triangle is a myth. Justify. 2

iv) Mention whether the statement given below is true or false. Why? 1
The Bermuda triangle is a specifically designed area.
